

NAPD

FLATLINE RESPONSE INC.

EMS/Fire Driver Training National Academy of Professional Drivers

NAPD

“The safe arrival of the apparatus at the scene of an emergency is the first priority.”

Laws that govern emergency vehicle response do not ensure safety, but a proactive driver training program makes a difference

Driver training programs will help ensure that emergency vehicle drivers use proper and professional driving skills.

The NAPD Curriculum is a complete driver improvement program. Students will develop skills and knowledge that will enhance their on-the-job performance. Caution and efficiency are reinforced each day of training. Driving activities are specifically designed to be intense and real- in a safe environment and at controlled speeds.

The curriculum includes classroom instruction and hands-on driving exercises on the Fire Department Driver Training Pad. Success in the driving component of the program is measured on a pass/fail basis on a variety of driving simulations. Student proficiency is required on a written exam. NAPD training is ideally suited for new drivers requiring a solid foundation in driving fundamentals and vehicle dynamics. Experienced drivers will also benefit from this comprehensive program that combines roadway principles with practical exercises

BE PREPARED

NAPD Two-Day Course

Dates: September 26 & 27, 2009

Time: 0900 hours

Course Fees: \$375.00

Course fees include program materials

Pre Requisites

Valid Class 5 Drivers License

Class size is limited to 10 Participants
